Not suitable for chemical applications These gloves should not be worn when there is a risk of entanglement by moving parts of machines.

Gloves containing natural rubber latex might contain ingredients which are known to be a possible cause of allergies in sensitised persons. If any allergic reaction should occur then medical advice should be obtained immediately.

Cleaning and Maintenance

These gloves should not be washed or laundered.
New and used gloves should be thoroughly inspected for damage before use.
Information regarding protection refers to the working surface, i.e. 'the palm' of the glove, which has been submitted to testing.
The protection levels indicated are only valid for new gloves.
